Overview

Heartweb is a peer reviewed cardiology journal whose website now features a new multimedia presentation section. The June volume includes presentations on 'Current management of atrial fibrillation' by J Fisher, MD, and 'Antithrombotic therapy in cardiovascular disease" by V Fuster, MD, PhD.

Content

State-of-the-art presentations of the management of atrial fibrillation and antithrombotic therapy which review these topics in detail.

Other comments

June 1999

Evaluation

Registration (free) is required. Real Player 5.0 or Real Player G2 need to be installed (both can be downloaded directly and free of charge from the Heartweb website).
